DETAILED ACTION

1. This Office Action is an answer to the IDS received on 8/25/2006.
2. Claims 16-30 are pending.

Drawings

3. Two sheets of formal drawings are accepted.

Allowable subject matter

4. Pending claims 16-30 are patentable over a cited reference of Nikolaus et al., (US Pat. 5,146,812), because this prior art does not make obvious a device/method of use that device for controlling at least one of a starting process, a driving process and a shifting process of a motor vehicle having a drive motor, a gearshift and a starting and shifting clutch, with the drive motor drivingly connected with the gearshift via the starting and shifting clutch and a clutch actuation device, a control apparatus communicates with a power adjusting element for controlling output of the drive motor and is connected with sensors by sensor lines, the sensors sensing an accelerator deflection angle, a motor rotation speed and a transmission input shaft rotational speed, the control apparatus has a first calculation module which calculates a target motor rotational speed value as a function of a transmission output shaft rotational speed and a gear to be shifted, toward which the motor rotational speed is adjusted in connection with such shifting process; the control apparatus has a second calculation module with which, when the clutch is slipping, a fuel injection amount for the drive motor is calculated as a function of the accelerator deflection angle as well as at least one of the motor rotational speed and the transmission input shaft rotational speed; and a third control module, outside of the shifting process when the clutch is not slipping, the fuel injection amount of a current fuel injection amount value is adapted to a

target fuel injection amount specified by a driver through the accelerator deflection angle.

Conclusion

5. Claims 15-30 are allowed, they are renumbered as claims 1-15.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CUONG H. NGUYEN whose telephone number is 571-272-6759 (email address: cuong.nguyen@uspto.gov). The examiner can normally be reached on 8:30 am - 4:30 pm.
